RECONNECT®

Solutions for Parole/Reentry

Helping Everyday Heroes™ Create Better Societal Outcomes

As an Everyday Hero, your goal is to help your clients complete parole program requirements and prepare to reenter their communities as productive citizens. During this phase in the client's journey, there are many difficult challenges for them to face. The more one-on-one support you can provide, the lower the chances of relapse or recidivism. Reconnect helps by giving you the tools necessary to make administrative tasks more efficient through automation, which frees up more of your time to frequently connect with your clients.

" *Reconnect gives me a better way to communicate with clients. It keeps them on task, really!*

--CW, Case Manager

The Reconnect System

- Communication
- Engagement
- Accountability
- Education
- Wellness

Engagement App & Platform

Case Management
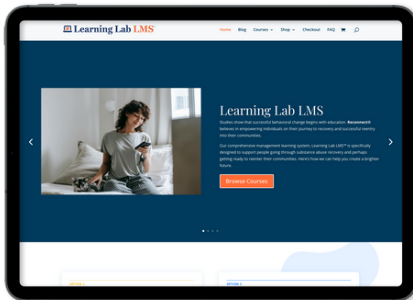

Smartphone Leasing

Learning Lab LMS

Reconnect Case Management™

A Parole/ Reentry Program has many moving parts with an ever-growing caseload. Mountains of paperwork take away from time spent with your clients. Let Reconnect CM automate your administrative tasks so you can connect more with your clients.

Reconnect Engagement Platform™

Reconnect Engagement Platform is a two-part platform that boasts features tailored to Parole/ Reentry Progams. The easy-to-use app will improve client communication. The management tool makes it easy to connect with clients and help them set up goals and automatic reminders to keep them on track.

Learning Lab LMS™

Parole/ Reentry Programs offer clients a high level of education and training support needed to be successful in the next phase of their journey. Learning Lab LMS is a system that allows you to set up customized curricula and provide valuable resources to help clients develop a better quality of life.

Reconnect Smartphone™

Need phones? We have you covered. Reconnect Smartphones operate like any other Android smartphone and the HIPAA-compliant Engagement App is conveniently pre-installed.
