

RECONNECT

Reconnect Engagement Platform™

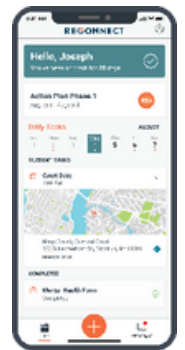

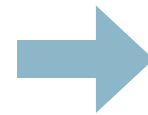

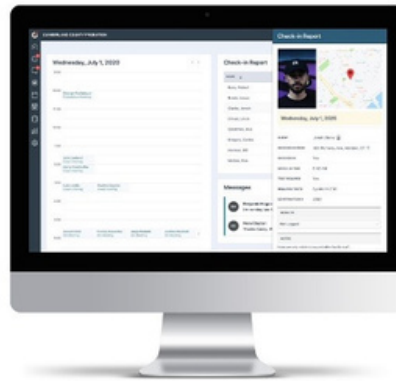

Technology that Empowers Everyday Heroes™

Everyday Heroes, like you, need flexible, responsive technology to manage community-based programs efficiently. Reconnect Engagement Platform includes a client-facing app that's easy to use. It also gives you a powerful, web-based management system with tools to automate repetitive tasks, notify you when action is required, and effectively follow client progress.

Our two-part platform allows you to provide non-stigmatizing personal support and encourages better choices that will positively impact client success.

“When you tap into Reconnect, you'll find that you're not working as hard. The app is doing the work. It went beyond my belief that it could do what it's does!”

– LH, Program Coordinator

Engagement App & Platform

Case Management

Smartphone Leasing

Learning Lab LMS™

Solve your toughest daily challenges

- Increase & enhance communication and connections
- Organized, time-saving accountability
- Engagement/ Support/ Encouragement
- Education
- Health and wellness

Add our **HardwareFreeEM** feature to the app when the courts require continuous accountability.

“ *Reconnect has promoted more human interaction within our program and helped us build personal relationships with our participants.*

– JS, Case Manager
